

KNIVES

SILIAN

Founded in 1997, Silian Art and Design is an art consultancy and art provider with the mission to enliven and enrich spaces through art. From art strategy and concept creation, art sourcing and commissions, right through to customised design, framing, and in-house production, we provide bespoke and streamlined services for our clients, supporting them with their artistic visions from any stage of the project.

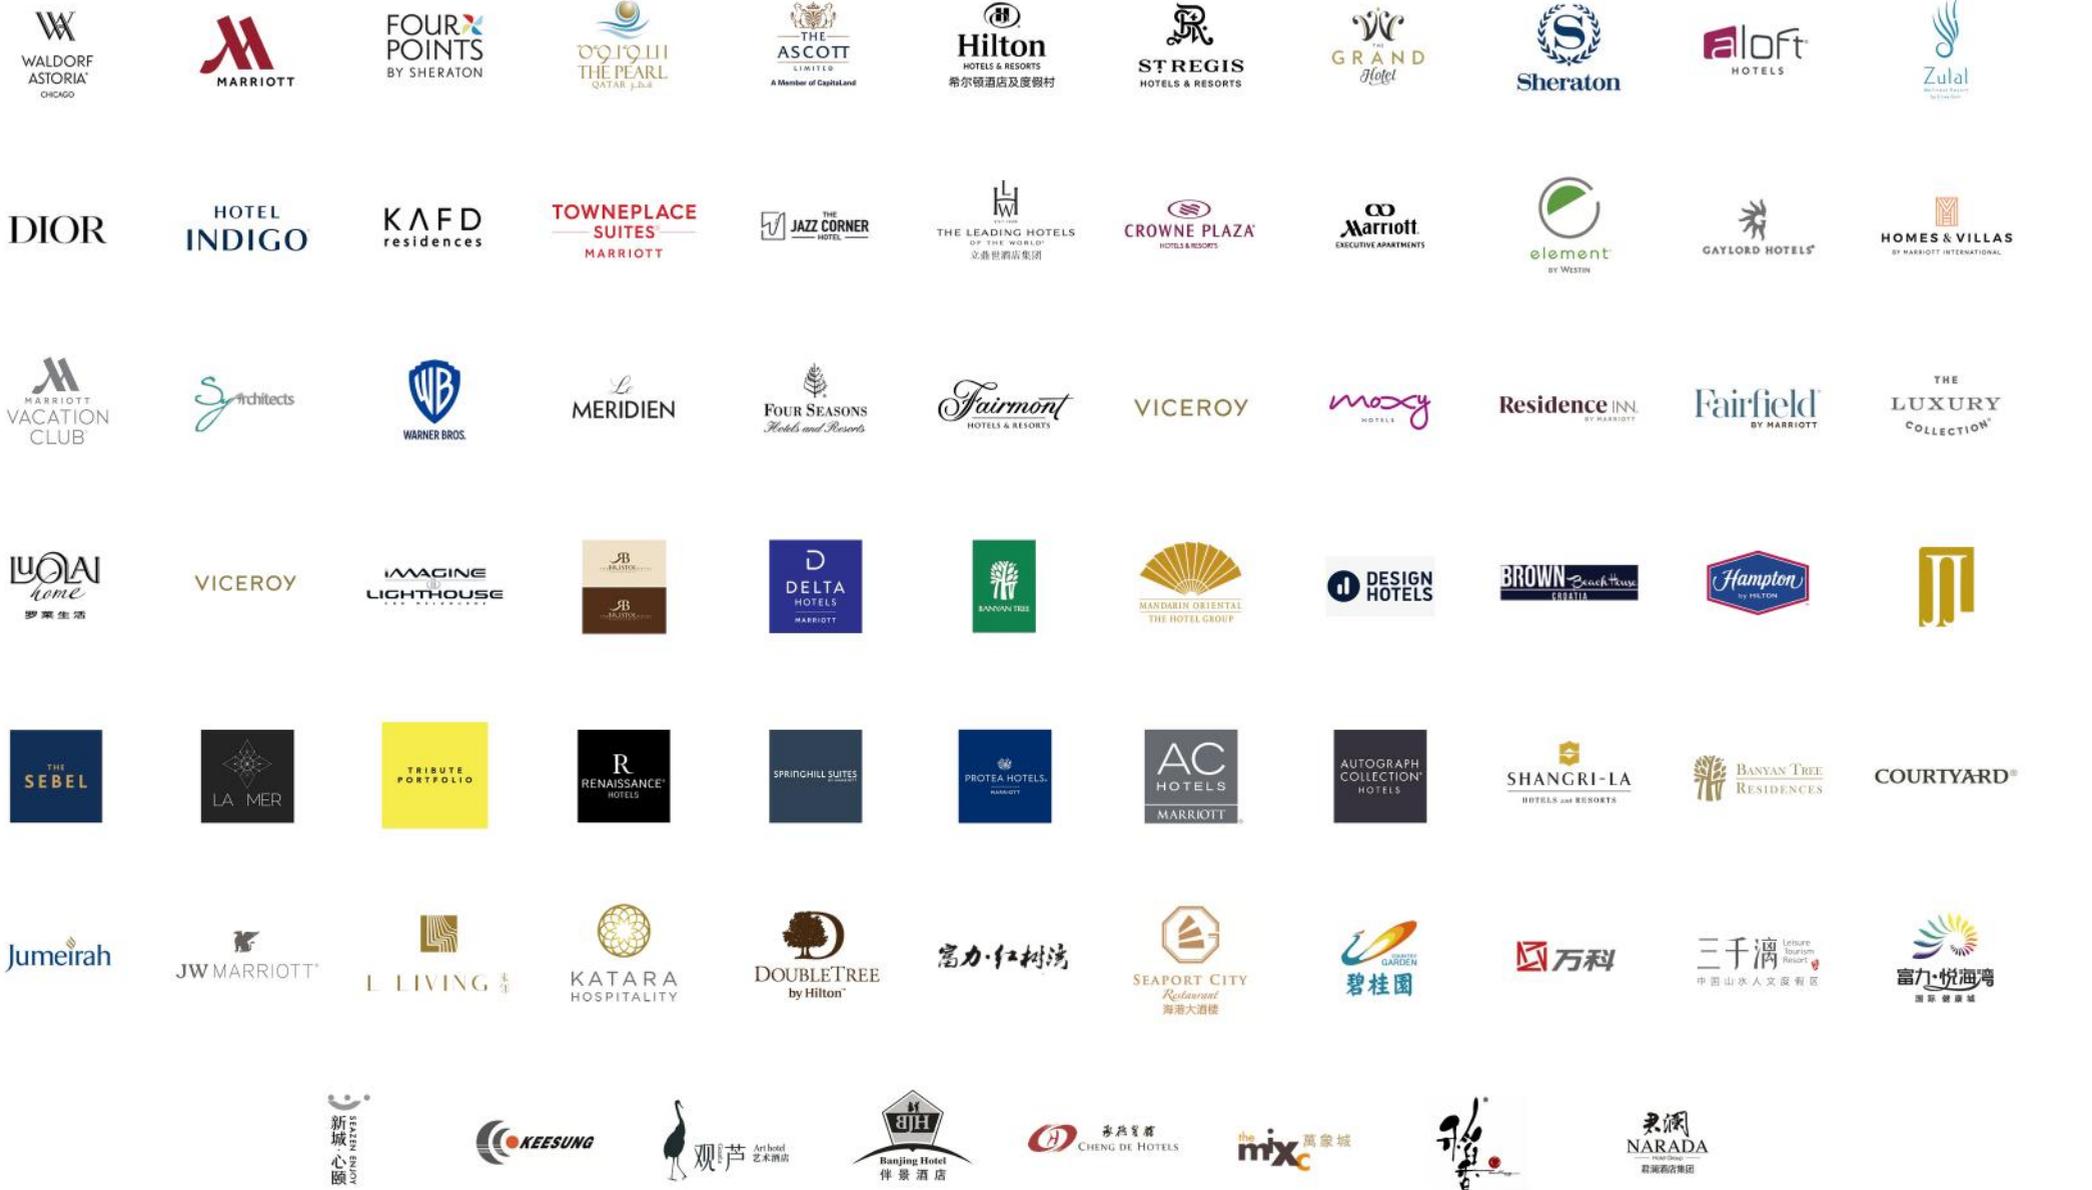

With an established global network of collaborating artists and licensing partners, and our strong creative team of designers, artisans, and technicians, we work with top property developers, hotel operators, leading interior designers, and procurement agencies to create impactful spaces around the world. Past projects include Jumeirah, Waldorf Astoria, Hilton, Mandarin Oriental, and Banyan Tree.

Committed to values of authenticity, innovation, and original thinking, our gallery space in London is dedicated to platforming young and emerging talents of the region. Spanning painters, sculptors, textile designers, and media artists, building an increasingly diversified and inclusive portfolio of creatives, we intend to bring bold creativity and ambition into every project, all the while ensuring project commercial and technical viability through our holistic design approach and established production base.
